Peter M. Turcic, Director
Division of Energy Employees Occupational Illness Compensation
U.S. Department of Labor
Room C-4511
200 Constitution Avenue, N.W.
Washington, D.C. 20210

Subject: SEC00033 Notice of Final Effect

Dear Mr. Turcic:

On behalf of the Secretary of the Department of Health and Human Services (HHS), and as required by 42 C.F.R. pt. 83.17(c), I am notifying you of the final effect of the HHS decision to designate a class of employees at the Oak Ridge Institute for Science Education, Oak Ridge, Tennessee, as an addition to the Special Exposure Cohort (SEC) under the Energy Employees Occupational Illness Compensation Program Act of 2000. On November 9, 2006, as provided for under 42 U.S.C. 7384q(b), the Secretary of HHS designated the following class of employees as an addition to the SEC:

> Employees of the Department Of Energy (DOE) predecessor agencies and their contractors or subcontractors, who were monitored or should have been monitored while working at the Oak Ridge Institute of Nuclear Studies Cancer Research Hospital from May 15, 1950, through December 31, 1963, and who were employed for a number of work days aggregating at least 250 work days or in combination with work days within the parameters established for other classes of employees included in the SEC.

This designation became effective on December 9, 2006, as provided for under 42 U.S.C. 7384*l*(14)(C). Hence, beginning on December 9, 2006, members of this class of employees, defined as reported in this notice, became members of the SEC.

Sincerely,

for Larry J. Elliott, MSPH, CIH
Director
Office of Compensation Analysis and Support
