

Appendix Table 2. Expression of antigen in organs of wild ducks at 4 days postinoculation with highly pathogenic avian influenza virus (H5N1)

		Antigen expression per species*																						
System	Organ or tissue†	Tufted duck no.			Pochard no.				Mallard no.				Wigeon no.				Gadwall no.							
		1	2	3	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4				
Nervous	Brain	Red	Red	Red			Red	Red													Yellow			
	Peripheral nerve	Orange	Red	Yellow			Yellow																	
Respiratory	Lung		Yellow	Orange					‡	‡	‡	‡									Yellow			
	Air sac	Yellow	‡	Yellow	‡	‡	Orange	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡
Digestive	Pancreas	Red	Yellow	Red			Red	Yellow							‡							Yellow	Yellow	‡
	Liver	Red			Yellow		Orange															Yellow	Yellow	‡
	Colon																					Yellow	Yellow	‡
Other	Heart	Orange					Yellow																	
	Adrenal gland	Red					Orange															Yellow		

*White, no cells positive; yellow, rare cells positive; orange, moderate number of cells positive; red, many cells positive.

†No virus antigen expression was observed in other organs or tissues.

‡Presence of histologic lesions consistent with infection but no viral antigen expression.
