

**Percentage of high school students who drank alcohol, by type of grades earned (mostly A's, B's, C's, or D's/F's) — United States, National Youth Risk Behavior Survey, 2015**

Alcohol Use	Percentage of students who engaged in each risk behavior, by type of grades mostly earned in school†				Significant Association*
	A's	B's	C's	D's/F's	
<b>Alcohol Use</b>					
<b>Ever drank alcohol</b> (at least one drink of alcohol on at least 1 day during their life)	56	65	71	79	Yes
<b>Drank alcohol before age 13 years</b> (for the first time other than a few sips)	12	17	21	34	Yes
<b>Currently drank alcohol</b> (at least one drink of alcohol on at least 1 day during the 30 days before the survey)	24	35	40	52	Yes
<b>Usually obtained the alcohol they drank by someone giving it to them</b> (among students who currently drank alcohol)	53	43	41	38	Yes
<b>Drank five or more drinks of alcohol in a row</b> (within a couple of hours on at least 1 day during the 30 days before the survey)	11	19	23	34	Yes
<b>Reported that the largest number of drinks they had in a row was 10 or more</b> (within a couple of hours during the 30 days before the survey)	2	4	5	15	Yes

† Percentage of students who engaged in each risk behavior, by type of grades mostly earned in school (mostly A's, B's, C's, D's/F's) are row proportions from cross-tabulations. The percentage of students who did not engage in each risk behavior are not shown. However, the total row proportions for the percentages of students who did and did not engage in each risk behavior, by type of grades mostly earned in school sum to 100%.

\*Based on logistic regression analysis controlling for sex, race/ethnicity, and grade in school, p<0.05.
