## **PREFACE**

This is one of two volumes presenting final vital statistics for the United States, its Territories, and certain possessions for the year 1952. Their subject matter consists of vital events that occurred in these areas during the year—marriages, divorces, births, fetal deaths, infant deaths, and deaths among the general population.

This annual report is organized as follows:

Volume I. Introduction and Summary Tables  
Tables for Alaska, Hawaii, Puerto Rico, and Virgin  
Islands, and Marriage, Divorce, Natality, Fetal

Volume II. Mortality Data

In using statistics from either volume, it is recommended that reference be made to the explanatory text in Volume I, which describes the sources and limitations of the data.

NOTE.—The category "metropolitan counties" for a State includes all counties within the State that are in "standard metropolitan areas" as defined by the Bureau of the Census, except in New England where the counties are those in the "metropolitan State economic areas," also defined by the Bureau of the Census. The category "nonmetropolitan counties" includes all other counties in the State.
