Table 8-8. Deaths From 72 Selected Causes for Metropolitan Areas of the United States: 1991

(Page 1 of 43)

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Beginning 1987 includes category numbers *042-*044; see Technical Appendix. Metropolitan Statistical Areas (MSAs), Primary Metropolitan Statistical Areas (PMSAs), and Consolidated Metropolitan Statistical Areas (CMSAs) are those defined by the Office of Management and Budget as of June 30, 1990, except for New England where areas are New England County Metropolitan Areas (NECMAs). PMSAs are components of CMSAs. For further discussion of metropolitan areas, see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1991

(Page 1 of 186)

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Beginning 1987 includes category numbers *042-*044; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1980. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1991—Con.

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Beginning 1987 includes category numbers *042-*044; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1980. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1991—Con.

(Page 29 of 186)

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Beginning 1987 includes category numbers *042-*044; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1980. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1991—Con.

(Page 75 of 186)

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Beginning 1987 includes category number *042-*044; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1980. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1991—Con.

(Page 87 of 186)

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Beginning 1987 includes category number *042-*044; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1980. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1991—Con.

(Page 88 of 186)

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Beginning 1987 includes category number *042-*044; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1980. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1991—Con.

(Page 101 of 186)

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Beginning 1987 includes category number *042-*044; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1980. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1991—Con.

(Page 103 of 186)

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Beginning 1987 includes category number *042-*044; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1980. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1991—Con.

(Page 110 of 186)

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Beginning 1987 includes category numbers *042-*044; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1980. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1991—Con.

(Page 113 of 186)

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Beginning 1987 includes category numbers *042-*044; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1980. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1991—Con.

(Page 139 of 186)

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Beginning 1987 includes category numbers *042-*044; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1980. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1991—Con.

(Page 149 of 186)

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Beginning 1987 includes category numbers *042-*044; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1980. For definition of areas see Technical Appendix]

Table 8-9. Deaths From 34 Selected Causes: United States, Each State and County, Population-Size Groups, Metropolitan and Nonmetropolitan Counties, and Specified Urban Places, 1991—Con.

(Page 165 of 186)

[Numbers after causes of death are category numbers of the Ninth Revision International Classification of Diseases, 1975. Beginning 1987 includes category numbers *042-*044; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 as enumerated in 1980. For definition of areas see Technical Appendix]

1 Includes ICD-9 Nos. 001-009,020-041,*042-*044,045-088,098-139.
2 Areas shown are census areas, the nearest equivalent of counties.
3 Includes data for La Paz which became a new county on January 1, 1983.
4 Includes data for Texarkana, Ark., only.
5 Data coded by Connecticut did not identify the incorporated city of Willimantic and are included in Balance of county. Figures shown are for deaths occurring in other States.
6 Areas shown are parishes, the equivalent of counties.
7 Includes data for Bristol, Tenn., only.
8 Includes data for Texarkana, Tex., only.
9 Independent city having population of less than 10,000 according to the 1980 census.
10 Includes data for Bristol, Va., only.
11 Includes data for Bluefield, W. Va., only.
Classified as urban under special rule; see Technical Appendix.

NOTES

Occurrence and residence allocation

In contrast with the method of allocating deaths to place of residence for each of the 50 States and the District of Columbia, residence data for the Commonwealth of Puerto Rico include only those deaths to residents of Puerto Rico occurring in Puerto Rico. Deaths to nonresidents occurring in the Commonwealth are included in occurrence mortality statistics, but are excluded from residence mortality statistics. Deaths to residents of Puerto Rico occurring elsewhere are excluded. The same qualification applies to resident deaths in the Virgin Islands and Guam. Exclusion of these nonresident deaths from resident mortality statistics began in 1970. Before 1970 resident mortality statistics for Puerto Rico included all deaths occurring in Puerto Rico, with deaths of nonresidents of Puerto Rico assigned to place of death.

Data are shown by both place of occurrence and place of residence in Puerto Rico for the primary geographic subdivision, the "municipio," and in the Virgin Islands for St. Croix Island, St. John Island, and St. Thomas Island. Deaths by place of residence are shown for municipios only and not for urban places for Puerto Rico; however, for the Virgin Islands they are shown for Charlotte Amalie, the only urban area having a population of 10,000 or more.

Race

Deaths are not shown by race for Puerto Rico; they are classified as white, all other, and black for the Virgin Islands and white, all other, and Guamanian for Guam.

Fetal deaths

Fetal deaths for Puerto Rico were published in the *Vital Statistics of the United States, Volume II, Mortality, Part B,* for the first time, beginning with 1976. Puerto Rico requires the reporting of fetal deaths with gestation period of over 5 months. All tables showing fetal deaths include only those with stated or presumed gestational age of 20 weeks or more.

The Technical Appendix—Section 7 in Part A of Volume II, *Vital Statistics of the United States, 1991*—discusses other factors concerning these mortality statistics.

Table 9-10. Total, Infant, Neonatal, and Fetal Deaths, by Race: Virgin Islands by Island and Specified Urban Place, and Guam, 1991

[Data by place of residence exclude deaths of nonresidents and deaths of residents occurring elsewhere than the Virgin Islands; however, data by place of occurrence include deaths of nonresidents of the Virgin Islands. The same qualifications apply to resident and nonresident deaths in Guam. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Charlotte Amalie is the only specified urban place with a population of 10,000 or more in 1980]
