ACKNOWLEDGMENTS

This publication and the vital statistics computer file on which it is based were prepared by staff from the Division of Vital Statistics, Division of Data Processing, Division of Data Services, and the Office of Research and Methodology.

The Division of Vital Statistics, John E. Patterson, Director (retired), Mary Ann Freedman, Acting Director, and James A. Weed, Deputy Director, managed the Vital Statistics Cooperative Program, through which the vital registration offices of all States, the District of Columbia, New York City, Puerto Rico, Virgin Islands, and Guam provided the data to the National Center for Health Statistics. This Division also processed computer edits, designed and programmed the tabulations, reviewed the data, and prepared documentation for this publication. The following branch chiefs provided overall direction: Ronald F. Chamblee, Joseph D. Farrell, George A. Gay, Harry M. Rosenberg, and Mabel G. Smith. Important contributors were Evangeline D. Adams, Joyce A. Arbertha, Judy M. Barnes, Heidi A. Brotherton, Leola Drake, Thomas D. Dunn, Linda L. Elias, Paula Gardner, Brenda S. Gillum, Donna E. Glenn, Donna L. Hoyert, Bettie L. Hudson, Millie B. Johnson, Virginia J. Justice, Kenneth D. Kochanek, Julia L. Kowaleski, Hsiang-Ching Kung, Wilma C. Latta, Marian F. MacDorman, Jeffrey D. Maurer, Mary J. Oakley, Charles E. Royer, Jordan S. Sacks, Ann F. Scarlett, Manju Sharma, Gopal K. Singh, Elsie A. Stanton, George C. Tolson, Irene H. Towns, and Lacola Washington.

The Division of Data Processing, Gerald C. Sanders, Director, and Howard Paris, Deputy Director, was responsible for receipt and processing of the basic data file. The following management staff provided overall direction: Brenda L. Brown, Mary V. Burt, Carl G. Hicks, June S. Pearce, Portia D. Prevo, Linda B. Torian, and Shirley C. Turbiville. Important contributors were Tyringa L. Ambrose, Rosalyn R. Anderson, Susan T. Autry, Joyce L. Bius, Trina L. Bryant, Frances E. Carter, Shirley Carter, Shirley Croy, Linda P. Currin, Jacqueline Davis, Patricia W. Dunham, Connie M. Gentry, Lillian M. Guettler, Lila W. Hales, Linda O. Harper, Audrey S. Johnson, Katheryn G. Lyndon, Carolyn H. Lyons, Janet L. McBride, Susan L. McBroom, Mary Susan McKelvey, Roy H. Peedin, Mae G. Penny, Rodney Pierson, Tanya W. Pitts, Lois L. Poole, Julia E. Raynor, Gwendolyn E. Robbins, Helen H. Rogerson, Claire Searl, Eldora Smith, Elizabeth A. Smith, Pamela A. Stephenson, Betty J. Stewart, Leslie J. Stewart, Betsy B. Thompson, Elizabeth A. Walston, Carolyn R. Watkins, Teresa M. Watkins, Faye L. Webster, James G. Williams, and Karen M. Wooten.

The Division of Data Services, Phillip R. Beattie, Director, and Margot A. Palmer, Deputy Director, was responsible for publications management, production, editorial review, and printing. The following branch and section chiefs provided overall direction: Richard L. Welch, Naomi M. Forester, and Rolfe W. Larson. Important contributors were Arlett R. Brown, Joan Burton, Jarmila G. Frazier, Patricia Keaton-Williams, Zung Le, Demarius V. Miller, and Patricia Wilson.

The Office of Research and Methodology was responsible for the application of mathematical statistics methods to the development and implementation of quality assurance procedures. Important contributions in this area were made by Kenneth W. Harris, Special Assistant for Program Coordination and Statistical Standards.

The National Center for Health Statistics acknowledges the essential role of the vital registration offices of all States and territories in maintaining the system through which vital statistics data are obtained and for their cooperation in providing the information on which this publication is based.

VITAL STATISTICS OF THE UNITED STATES, 1991

VOLUME II—MORTALITY

A brief summary of the contents for sections 8 and 9 is listed below for the convenience of the reader. A complete contents page is at the beginning of each section and is identified by a narrow black edge, which can be located easily by fanning the pages. Each section is paged independently, beginning with page 1. Sections 1 through 7, which show data on General Mortality, Infant Mortality, Fetal Mortality, Perinatal Mortality, Accident Mortality, Life Tables, and the Technical Appendix, are in Part A of Volume II of *Vital Statistics of the United States, 1991*. Section 7, the Technical Appendix, discusses the factors affecting the collection, classification, and interpretation of the mortality statistics.

PART B

Section 8. Geographic Detail for Mortality

Total number of deaths, deaths from selected causes, infant deaths, neonatal deaths, fetal deaths, and selected rates and ratios. Tabulations shown by each State and county, specified urban places, metropolitan and nonmetropolitan counties, population-size groups, and metropolitan areas.

Section 9. Puerto Rico, Virgin Islands (U.S.), and Guam

Trend of the crude death rate. Frequency tabulations for most of the characteristics shown in other sections of Volume II.

Guide to tables in Section 8

[All data are for deaths occurring in the United States during 1991. Data for geographic areas within the United States are by place of residence unless otherwise noted. Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths to nonresidents]

Section 8. Geographic Detail for Mortality

Table		Page
8–1.	Total, infant, and neonatal deaths, and fetal deaths, by race: United States, each State and county, and specified urban places of 10,000 or more, 1991	1
8–2.	Total deaths, infant and neonatal deaths and rates, fetal deaths and rates, by race, for population-size groups in metropolitan and nonmetropolitan counties: United States and each State, 1991	87
8–3.	Deaths by 10-year age groups, race, and sex, for metropolitan and nonmetropolitan counties: United States and each State, 1991	100
8–4.	Deaths by 10-year age groups, race, and sex, for metropolitan areas of the United States: 1991	126
8–5.	Deaths from 72 selected causes, by 5-year age groups, race, and sex: United States, 1991	176
8–6.	Deaths from 72 selected causes, by 10-year age groups, race, and sex: each State, 1991	202
8–7.	Deaths from 72 selected causes, by State of occurrence: United States and each State, 1991	491
8–8.	Deaths from 72 selected causes for metropolitan areas of the United States: 1991	496
8–9.	Deaths from 34 selected causes: United States, each State and county, population-size groups, metropolitan and nonmetropolitan counties, and specified urban places, 1991	539

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991

(Page 1 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 3 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 5 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 11 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Area and race	Total deaths by county of occurrence	Deaths by place of residence			Fetal deaths by place of residence
		Total deaths	Infant	Neo-natal

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 15 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 16 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 18 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Area and race	Total deaths by county of occurrence	Deaths by place of residence			Fetal deaths by place of residence
		Total deaths	Infant	Neo-natal

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Area and race	Total deaths by county of occurrence	Deaths by place of residence			Fetal deaths by place of residence
		Total deaths	Infant	Neo-natal

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 21 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 23 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 26 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 27 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 28 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 33 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 36 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Area and race	Total deaths by county of occurrence	Deaths by place of residence			Fetal deaths by place of residence

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 38 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 41 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 43 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 46 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 48 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 51 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Area and race	Total deaths by county of occurrence	Deaths by place of residence			Fetal deaths by place of residence
		Total deaths	Infant	Neo-natal

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 52 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 53 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Area and race	Total deaths by county of occurrence	Deaths by place of residence			Fetal deaths by place of residence
		Total deaths	Infant	Neo-natal

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 54 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 55 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 56 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 60 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 66 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Area and race	Total deaths by county of occurrence	Deaths by place of residence			Fetal deaths by place of residence
		Total deaths	Infant	Neonatal

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 68 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Area and race	Total deaths by county of occurrence	Deaths by place of residence			Fetal deaths by place of residence

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 71 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 73 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 76 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Area and race	Total deaths by county of occurrence	Deaths by place of residence			Fetal deaths by place of residence

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 78 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 81 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 84 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1991—Con.

(Page 86 of 86)

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Beginning in 1989, race for fetal deaths is tabulated according to race of mother; see Technical Appendix. Infant deaths are those under 1 year and neonatal deaths are those under 28 days. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

[1] Areas shown are census areas, the nearest equivalent of counties.
[2] Includes data for La Paz which became a new county on January 1, 1983.
[3] Includes data for Texarkana, Ark., only.
[4] Data coded by Connecticut did not identify the incorporated city of Willimantic and are included in Balance of county. Figures shown are for deaths occurring in other States.
[5] Areas shown are parishes, the equivalent of counties.
[6] Minimum reporting requirements for fetal deaths are assumed to exceed 20 weeks gestation; see Technical Appendix.
[7] Includes data for Bristol, Tenn., only.
[8] Includes data for Texarkana, Tex., only.
[9] Independent city having population of less than 10,000 according to the 1980 census.
[10] Includes data for Bristol, Va., only.
[11] Includes data for Bluefield, W. Va., only.
Classified as urban under special rule; see Technical Appendix.

Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Rates, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1991

(Page 1 of 13)

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates per 1,000 live births in specified group; fetal death rates per 1,000 live births and fetal deaths in specified group. Beginning in 1989, race for fetal deaths and live births is tabulated according to race of mother; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more in 1980; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 in 1980. For definition of areas see Technical Appendix]

Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Rates, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1991—Con.

(Page 2 of 13)

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates per 1,000 live births in specified group; fetal death rates per 1,000 live births and fetal deaths in specified group. Beginning in 1989, race for fetal deaths and live births is tabulated according to race of mother; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more in 1980; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 in 1980. For definition of areas see Technical Appendix]

Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Rates, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1991—Con.

(Page 3 of 13)

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates per 1,000 live births in specified group; fetal death rates per 1,000 live births and fetal deaths in specified group. Beginning in 1989, race for fetal deaths and live births is tabulated according to race of mother; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more in 1980; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 in 1980. For definition of areas see Technical Appendix]

Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Rates, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1991—Con.

(Page 8 of 13)

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates per 1,000 live births in specified group; fetal death rates per 1,000 live births and fetal deaths in specified group. Beginning in 1989, race for fetal deaths and live births is tabulated according to race of mother; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more in 1980; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 in 1980. For definition of areas see Technical Appendix]

Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Rates, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1991—Con.

(Page 10 of 13)

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates per 1,000 live births in specified group; fetal death rates per 1,000 live births and fetal deaths in specified group. Beginning in 1989, race for fetal deaths and live births is tabulated according to race of mother; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more in 1980; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 in 1980. For definition of areas see Technical Appendix]

Table 8-4. Deaths by 10-Year Age Groups, Race, and Sex, for Metropolitan Areas of the United States: 1991

(Page 1 of 50)

[Metropolitan Statistical Areas (MSAs), Primary Metropolitan Statistical Areas (PMSAs), and Consolidated Metropolitan Statistical Areas (CMSAs) are those defined by the Office of Management and Budget as of June 30, 1990, except for New England, where areas are New England County Metropolitan Areas (NECMAs). PMSAs are components of CMSAs. For further discussion of metropolitan areas, see Technical Appendix]

Table 8-4. Deaths by 10-Year Age Groups, Race, and Sex, for Metropolitan Areas of the United States: 1991—Con.

(Page 6 of 50)

[Metropolitan Statistical Areas (MSAs), Primary Metropolitan Statistical Areas (PMSAs), and Consolidated Metropolitan Statistical Areas (CMSAs) are those defined by the Office of Management and Budget as of June 30, 1990, except for New England, where areas are New England County Metropolitan Areas (NECMAs). PMSAs are components of CMSAs. For further discussion of metropolitan areas, see Technical Appendix]

Table 8-4. Deaths by 10-Year Age Groups, Race, and Sex, for Metropolitan Areas of the United States: 1991—Con.

(Page 17 of 50)

[Metropolitan Statistical Areas (MSAs), Primary Metropolitan Statistical Areas (PMSAs), and Consolidated Metropolitan Statistical Areas (CMSAs) are those defined by the Office of Management and Budget as of June 30, 1990, except for New England, where areas are New England County Metropolitan Areas (NECMAs). PMSAs are components of CMSAs. For further discussion of metropolitan areas, see Technical Appendix]

Table 8-4. Deaths by 10-Year Age Groups, Race, and Sex, for Metropolitan Areas of the United States: 1991—Con.

(Page 27 of 50)

[Metropolitan Statistical Areas (MSAs), Primary Metropolitan Statistical Areas (PMSAs), and Consolidated Metropolitan Statistical Areas (CMSAs) are those defined by the Office of Management and Budget as of June 30, 1990, except for New England, where areas are New England County Metropolitan Areas (NECMAs). PMSAs are components of CMSAs. For further discussion of metropolitan areas, see Technical Appendix]

Table 8-4. Deaths by 10-Year Age Groups, Race, and Sex, for Metropolitan Areas of the United States: 1991—Con.

(Page 30 of 50)

[Metropolitan Statistical Areas (MSAs), Primary Metropolitan Statistical Areas (PMSAs), and Consolidated Metropolitan Statistical Areas (CMSAs) are those defined by the Office of Management and Budget as of June 30, 1990, except for New England, where areas are New England County Metropolitan Areas (NECMAs). PMSAs are components of CMSAs. For further discussion of metropolitan areas, see Technical Appendix]

Table 8-4. Deaths by 10-Year Age Groups, Race, and Sex, for Metropolitan Areas of the United States: 1991—Con.

(Page 34 of 50)

[Metropolitan Statistical Areas (MSAs), Primary Metropolitan Statistical Areas (PMSAs), and Consolidated Metropolitan Statistical Areas (CMSAs) are those defined by the Office of Management and Budget as of June 30, 1990, except for New England, where areas are New England County Metropolitan Areas (NECMAs). PMSAs are components of CMSAs. For further discussion of metropolitan areas, see Technical Appendix]

Table 8-4. Deaths by 10-Year Age Groups, Race, and Sex, for Metropolitan Areas of the United States: 1991—Con.

(Page 49 of 50)

[Metropolitan Statistical Areas (MSAs), Primary Metropolitan Statistical Areas (PMSAs), and Consolidated Metropolitan Statistical Areas (CMSAs) are those defined by the Office of Management and Budget as of June 30, 1990, except for New England, where areas are New England County Metropolitan Areas (NECMAs). PMSAs are components of CMSAs. For further discussion of metropolitan areas, see Technical Appendix]

Table 8-4. Deaths by 10-Year Age Groups, Race, and Sex, for Metropolitan Areas of the United States: 1991—Con.

(Page 50 of 50)

[Metropolitan Statistical Areas (MSAs), Primary Metropolitan Statistical Areas (PMSAs), and Consolidated Metropolitan Statistical Areas (CMSAs) are those defined by the Office of Management and Budget as of June 30, 1990, except for New England, where areas are New England County Metropolitan Areas (NECMAs). PMSAs are components of CMSAs. For further discussion of metropolitan areas, see Technical Appendix]
