

Eighth Annual Meeting of the WG:

Overview of Session 2 on the Extended Question Sets

Jennifer H. Madans

U.S.A.

Plan for Session 2

- Session 2 focuses on the development of the extended question sets.
 - Presentations include:
 - Background & guiding principles to the development of extended question sets
 - The Matrix & laying the groundwork for the development of the extended question sets
 - Presentation of the proposed extended question sets
 - (Group work)
-

Plan for Session 2

- We want you to understand the rationale for the choice of questions
 - We want you to read and understand the questions
 - in terms of the purpose for which they are collected, and
 - in the context of your country and in your language(s)
-

Plan for Session 2

- We want to focus on issues that require testing (both cognitive and field testing), for example,
 - Wording and word usage
 - Question stems
 - Response categories
-

What we want to achieve:

- We want to come to some agreement on a set of extended questions for testing
 - We want to discuss the development of other possible sets of questions (e.g. environmental factors, impact, more complex activities & participation)
-
