July 18, 1994

Dear Sir:

In regard to the proposed rule on respiratory protection devices (42 CFR Part 84 Fed. Register Vol. 59, No. 99 pp. 26850-26893) in the health care setting, we feel that the 95% filter efficiency should be acceptable for most health care workers.

We would like to be able to use a mask that will be cost effective, have few user problems and be comfortable to the health care worker promoting their use.

Sincerely,

Linda Halford R.N.

Linda Halford R.N.
President APIC Southwest Missouri
