sirs:

Regrading 42 CFR part 84
Our company is not for this at all
The current systems gives the SCBA manufactures complete control and a hugh monopoly and does not give the end users a choice for a alternate cylinder. The manufactures are charging way too much for their cylinders.
I sell SCI cylinders which is one of the best in the industry and I get alot of feed back from fire depts that want them but they get verbal abuse from the SCBA manufacutres about stupid warrnanty which is not justified at all Let the end users have a choice and not a monopoly from the the manufactures Change to have freedom of choice NOW amf not have gouging manufactures make unbelievable profit Roger Comeau Fire Fighter Sales
